magnetic space planning systems

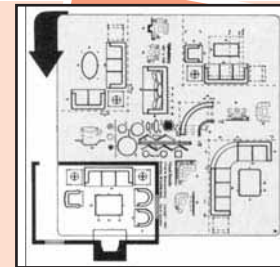

A variety of magnetic room planning systems are available which include everything you need to produce computer quality furniture plans in minutes! These valuable tools aid the designer in creating scaled, professional and accurate living spaces through the use of graphically-detailed magnetic symbols representing up-to-date furniture sizes and styles. The Board™ (780 symbols) and the Board Jr.™ (270 symbols) are two of the most popular. All of the offered systems vary in size, price, and specialty. See Order Form for the complete list of available space planning systems. Contact IDS National Headquarters for additional specifics.

story board design presentation kit

Impress your clients and clearly illustrate your design by presenting swatches, flooring samples, wallpaper, paint chips and photographs in a cohesive unified manner. Two magnetic fabric arranger boards provide flexibility when working with multiple clients. The fabric arranger boards, along with picture/floor plan corners and proposal pockets, are contained in a durable and stylish carrying case.

visual results stencil templates

Boost your productivity, proficiency and confidence with this versatile six-template kit. This system includes 180 shapes and 7 invaluable practice room exercises. Shapes represent upholstery, occasional, office, architectural, dining room, bedroom, bath, area rugs, and wall systems.

E-Z decorator system

Create artistic conceptual illustrations in 3-D using an overlay and cling system illustrated by a professional artist. Using this design tool, you can instantly create fabulous interior design illustrations and furniture layouts that will showcase your design ideas and creativity. This easy to use system assists in coordinating various styles by using symbols assigned to each drawing. Styles represented are Formal, Country, Contemporary, and Transitional. The Standard Package gives you the basic illustrations and grid board in a customized binder. You may then add supplements; such as the Outdoor Living supplement, to increase versatility. The system is also available in various arrangements that include additional illustrations and binders. See Order Form for the complete list of available systems. Contact IDS National Headquarters for additional specifics.

MINUTESmatter® Measuring System

Measuring has never been so fast and easy! No more writing those same phrases over and over again; preprinted forms for bedding, showers, cushions and tablecloths save time. The CD edition includes 25 paper copies of each form, as well as, a CD with all forms in PDF format allowing you to print your own forms. A custom aluminum clipboard and laminated tabs come with both editions.

MINUTESmatter® QuickBooks & Quoting 7.1

This add-on product for QuickBooks is specifically tailored for designers and workrooms to provide all the tools to quote and close sales on a single appointment. The system includes a manual that summarizes essential features of QuickBooks and a CD with a Chart of Accounts, several hundred item codes plus forms for customization.

MINUTESmatter® Client Management System

This system is designed to make record keeping less tedious. Use the included Client Appointment forms, a master Memo Ordering form, Fabric Check-in labels, and Client Swatch card forms to increase your professionalism and Wow your most valuable asset, your client.

MINUTESmatter® Studio 2.0

Create beautiful window treatment illustrations to scale. Every detail of the design can be evaluated before fabrication begins. Using a computerized rendering of the treatment, every detail of the design can be evaluated before fabrication begins saving time and preventing costly errors.

MINUTESmatter® Studio Design

This computer program maximizes the design process, saves hours of time during consultations, and eliminates costly communications errors. While working in a single program you can create custom window treatment illustrations (Studio 2.0) and design floor plans (Studio Planner).

***Please note: Both programs, Studio 2.0 and Studio Design, come with a binder, a Quick Reference sheet, printed Clipart, a System/Tutorial disk, and 2 licenses.*

design &

DreamDraper®G4

Computer-based design and visualization program for PC or Mac. Fully completed treatments that break apart to mix and match, add color or fabric, design on a photo, plus more!

DreamDraper®Quick Quote™

Extensive database of costs to quickly prepare customer estimates in an instant. Proven method saves hours of time and improves profit margins. Integrates with QuickBooks.

DreamDraper®Plus

Combination of G4 and Quick Quote™ systems for greater savings.

The Designer's Survival Guide to QuickBooks by DreamDraper®

The definitive reference book of tools and tips for managing your business with QuickBooks. Written for designers by a designer and QuickBooks Certified Pro-Advisor.

DreamDraper®Measuring Forms

CD contains 36 clear, printable forms of traditional and contemporary window types to help you avoid costly errors and repeat visits when measuring windows.
